

Solar Energy South Africa

Price for 3kw solar power system Saint Martin

Overview

How much does a 3KW Solar System cost?

A 3 kW system will cost about \$6,300 to install, including the federal solar tax credit, and will pay for itself in just under 11 years. 3kW systems help offset electricity usage and will not eliminate your entire electricity bill. A 3kW solar system will produce between 260-415 kWhs of electricity depending on sun exposure.

Can a 3KW solar system save you money?

The electric bill savings from a 3kW solar system varies widely from state to state. This is because your power bill savings depend on how much energy is produced and how much electricity costs. For example, if your 3kW solar system generates 415 kWh a month in Florida, it will save you about \$46 per month.

How much electricity does a 3 kW solar system generate?

A 3 kW solar system will generate between 260 and 415 kilowatt-hours of electricity per month, depending on where it is installed. That's about \$50 worth of electricity. Installing a 3 kW solar panel system won't cover the entire electricity bill of most homes.
