[Rapid Milk Chiller\(TM\)](#)

Promethean's Rapid Milk Chiller is a modular milk chilling system that instantly cools milk from 35 o to 4 o C without a diesel generator. The system can chill 1000 litres of milk per day, even if there is no power during the milk collection by using only 4 hours of intermittent grid power between each milking shift.

Thermal Energy Storage in India

Promethean Power Systems' thermal battery stores thermal energy in the few hours when the grid is available and releases the energy when needed to provide cooling power. "We recently received a new, large order from one of India's largest dairies that happens to be an existing customer. Repeat orders are important to us because it proves
