

Solar Energy South Africa

Proterra energy Cameroon

Overview

Is Proterra a public company?

Proterra Inc. was an American electric vehicle and powertrain manufacturer based in Burlingame, California. The company designed and manufactured battery electric transit buses, powertrain systems for other heavy-duty vehicle builders and charging systems for fleets of heavy-duty vehicles. Founded in 2004, it became a public company in June 2021.

What business units does Proterra have?

It operates through two business units - Proterra Powered and Energy; and Proterra Transit. The former unit offers battery systems and electrification solutions for global commercial vehicle original equipment manufacturer (OEM) customers serving delivery trucks, school buses, coach buses, construction and mining equipment, and other applications.

What is a Proterra battery?

Proterra batteries are made with second-life applications and recycling in mind, with pack architecture that allows for a stackable design in storage systems and materials suited for harsh outdoor environmental conditions.

Who owns Proterra powertrains?

The Proterra Powered powertrain manufacturing business line will operate as an independent company within the Volvo Group. The transit bus manufacturing business line was sold to Phoenix Motorcars. The Proterra Energy business line which built charging systems for fleets of heavy-duty vehicles was purchased by Cowen Equity.

Does Proterra offer a battery leasing program?

Proterra offers a battery leasing program where customers pay for the price of the battery over time rather than upfront when the bus is purchased. The company says that many customers can make lease payments using their

operational savings from reduced fuel and maintenance costs.

Does Proterra supply battery technology for emotors?

Proterra. October 30, 2018. Retrieved March 13, 2020. ^ Hawkins, Celeste (November 10, 2021). "Proterra To Supply Battery Technology For Up To 10,000 Lightning EMotors Electric Commercial Vehicles | Proterra". Retrieved November 22, 2023.
