Overview

What is a pytes E-box LFP battery?

er ManualDear customer, This is your Pytes E-BOX SERIES LFP battery for home energy storage system. We provide safe, well-designed and high-performance standard LFP battery packs for you. The battery pack is compact, easy to install, free of maintenance and is used as the basic building block of an energy storage system.

How do I store the pytes E-box LFP battery?

Pytes E-BOX SERIES LFP Battery User Manual Keep the battery SOC to 40%-60% during storage. The Self-discharge of the LFP battery pack is 1-2% per month. Disconnect the LFP battery from all loads and, if present, the charging device. Store the battery in a cool and dry place without direct sunlight.

What should I do if my pytes E-box battery is grounded?

Page 4 Pytes E-BOX SERIES LFP Battery User Manual e) Wear personal protective equipment. f) Ensure that if the battery is either intentionally or inadvertently grounded. Contacting with any part of a grounded battery can cause electric shock and burns by high short-circuit current.

Who can install and repair pytes energy equipment?

Pytes Energy CO., LTD. Add: No.3492 Jinqian Road, Qingcun Town, Fengxian District
Warning: This equipment may only be installed and repaired by a qualified skilled person. The local safety regulations and relevant operating procedures must be observed during the installation, operation and maintenance of the equipment, otherwise the equipment may be damaged.

Are pytes liable for damage caused by improper use of the product?

Pytes cannot be held responsible for any damage caused by improper or incorrect use of the product. Read and understand this warranty of the product.

manual completely before using the product. During the use of this product, user safety instructions should always be followed to ensure the safety of installers, users, service per

DLG E-BOX 48100R, testing and tinkering.

Hello! I've got 10 pcs of E-BOX-48100R-C Flashed new firmware to all of them (Main Soft version : SPBMS16SRP2203V1.5.18.C8) I have an issue connecting more than 8 batteries. If I have master and 7 slaves - they work perfect. But if I want to connect all 10 together - master battery continuously trying to issue addresses.
