

Solar Energy South Africa

Qcell company Bahrain

Overview

Qcells develops and produces photovoltaic cells and solar panels. It produces and installs PV systems for commercial, industrial, and residential applications and provides EPC services for large-scale solar power plants. The company's engineering offices are located at the original headquarters in Thalheim, Germany. Production facilities are located in , and , in the U.

What does qcells do?

Qcells develops and produces monocrystalline silicon photovoltaic cells and solar panels. It produces and installs PV systems for commercial, industrial, and residential applications and provides EPC services for large-scale solar power plants. The company's engineering offices are located at the original headquarters in Thalheim, Germany.

Is qcells a subsidiary of Hanwha solutions?

Qcells now operates as a subsidiary of Hanwha Solutions, the group's energy and petrochemical company. Qcells has manufacturing facilities in the United States, Malaysia, and South Korea. The company was the sixth-largest producer of solar cells in 2019, with shipments totaling 7.3 gigawatts.

Who is Hanwha qcells?

Hanwha will also be the only company in North America to produce all key components across the solar supply chain — spanning from polysilicon to finished modules. Hanwha Qcells is a completely clean energy solutions provider operating worldwide with expertise in solar technology and sustainable energy solutions.

Where is qcells headquartered?

The company is headquartered in Seoul, South Korea, after being founded in 1999 in Bitterfeld-Wolfen, Germany, where the company still has its engineering offices. Qcells was purchased out of bankruptcy in August 2012 by the Hanwha Group, a South Korean business conglomerate.

When did qcells go public?

Qcells would grow to become one of the world's largest solar cell manufacturers, employing over 2,000 people and encouraging other companies to open facilities in the surrounding area, which would come to be known as Germany's "Solar Valley". The company went public on 5 October 2005, listing on the Frankfurt Stock Exchange.

Does qcells offer a warranty?

Q CELLS stands by its technology and underscores its commitment by offering the Q.PEAK DUO module series based on Q.ANTUM DUO with a performance warranty of at least 85 % in the 25th year, one of the lowest degradation rates in the industry.
