# Rayton company Nepal

## Overview

---

What is raytoncorp?

RaytonCorp | Shared Focus Our goal is to establish ourselves as the leading national provider of managed services in the information technology, cyber forensics and cyber security verticals and to be the employer of choice for exceptional professionals within and outside of our geographical borders.

How does Rayton achieve market leverage?

By lowering supply costs up to 25% and increasing yield, Rayton achieves considerable market leverage, as we seek to supply all companies fabricating electronics on these advanced materials. and layer transfer for materials such as GaAs, GaN, SiC and InP.

Who is Rayton secure?

Rayton Secure is a purpose built cyber security provider for your operational security and compliance needs. Skilful acquisition, analyses, and presentation of digital evidence increasingly determines the outcome of court and arbitration proceedings. We employ leading edge technologies and processes and produce world class reports for your matters.

What will Rayton do with this fundraising round?

Rayton plans to use this fundraising round for the advancement of our beta phase production. During this phase, Rayton will produce engineered wafers in-house to sample out to epitaxy and wafer foundries for high-speed high-power electronic components. Once sales agreements are finalized, Rayton will then move onto single-line production.
