Synera Renewable Energy secures establishment permit for ...

Synera Renewable Energy (SRE) has secured an establishment permit from Taiwan's Energy Administration for its 495MW Formosa 4 Offshore Wind Project. This achievement positions Formosa 4 as the first among the successful bidders in the first round of auctions for Phase 3 Zonal Development of Offshore Wind to reach this critical milestone.

British Indian Ocean Territory

The British Indian Ocean Territory (BIOT) is an Overseas Territory of the United Kingdom situated in the Indian Ocean, halfway between Tanzania and Indonesia. The territory comprises the seven atolls of the Chagos Archipelago with over 1,000 individual islands, many very small, amounting to a total land area of 60 square kilometres. The largest and most southerly island is Diego ...

Renewable Energy Applications , Interconnect Solutions

Our world faces constant challenges to meet diversified energy requirements and the need to make a giant leap to renewable sources is more pressing than ever. Amphenol with a legacy of providing the most reliable connectors for challenging innovations extends its array of interconnect solutions to meet the demands of renewable energy applications.

Renewable Energy

British Virgin Islands (en) Bulgaria (en) Cambodia (en) to climb. Capacity is increasing, but not fast enough. Our team and our firm believe strongly in the future of renewable energy, and as industry leaders, we share our knowledge around the world and across sectors. Some or all of the services described herein may not be permissible

CIP and Ampin to deliver 2GW of renewable energy in India

CIP plans to expand its Indian market activities with new and existing partners. Credit: Soonthorn Wongsaita / Shutterstock. Copenhagen Infrastructure Partners (CIP) and Ampin Energy Transition have expanded their collaboration to deliver 2GW of renewable energy projects across India. The agreement

World : Renewable and Waste Energy Statistics (Edition 2023)

This dataset comprises statistics regarding various renewable and waste energy while presenting trade statistics of various renewable energy products as well as figures for those products in terms of electricity output (GWh) and heat output(TJ).

Clean Energy Finance and Investment Roadmap of India

India has achieved major progress in its energy sector over the last two decades. Still, investment needs to scale up considerably to

meet the government's ambitions to achieve 500 GW of renewable energy capacity and energy-intensity reductions of 45% by 2030.
