

Solar Energy South Africa

Rent to own solar system Réunion

Overview

What is a rent-to-own solar programme?

The Rent-To-Own (RTO) solar programme stands as a beacon of innovation, offering a myriad of advantages that fuel its growing popularity: 1. Financial Accessibility: The RTO paradigm dismantles financial barriers, unlocking the doors of solar adoption to those whose resources might not suffice for a substantial upfront payment.

Reach out to Elite Renewables today and start your journey towards cleaner, greener energy!.

Should you rent or buy a solar system?

When you rent a solar system, the solar company remains responsible for the system's maintenance, repairs, and insurance. This relieves you of the burden of maintenance costs and ensures hassle-free operation. Instead of purchasing the solar system outright, you make monthly payments to the solar company.

Should you buy or lease a solar system?

When exploring solar financing options, homeowners must carefully weigh the benefits and considerations of leasing versus purchasing a solar system. While leasing offers low upfront costs and limited responsibility, purchasing provides long-term financial savings, ownership, and customization opportunities.

Why should you rent a solar system?

Because we believe that everyone deserves the opportunity to go solar!
Imagine powering your home with clean energy while also saving money on your electricity bills?

With our game-changing approach, you can now rent to own a top-of-the-line solar system, and get your power back!.

Should I buy a solar system?

Purchasing a solar system involves buying the equipment outright or securing a loan to finance the installation. Here are the advantages and considerations associated with purchasing: By purchasing a solar system, you become the owner of the equipment and can benefit from substantial long-term financial savings.
