280Ah LiFePo4 Akku Vergleich: CATL vs. EVE vs. LISHEN vs. REP

LISHEN hat derzeit keine 280ah-Zelle, aber er hat eine, die dieser Fähigkeit nahe kommt: 3.2v 272ah lifepo4 Batteriezelle. Auch diese Batteriezelle verkauft sich derzeit gut auf dem Markt. Denn diese Zelle hat weniger Kapazität als die 280ah, Der Preis pro Zelle wird auch etwas niedriger sein als bei den ersten beiden.

Current offer is for REPT 280Ah, EVE 304Ah and CATL 302Ah. Can you, please, share some quick

feedback on the different brands? CATL - I've used them and so far so good. EVE - I've been reading in the past for issues with low capacity on some LF280K, but these are 304Ah cells, so this should not apply. REPT - no idea about how good they are.
