Seplos Controller mit Webseite Der Esp8266 ist über ein Rs485 Modul mit dem Seplos BMS verbunden und kann diesem seine Daten entlocken. Shutdown Button: Das BMS wird ausgeschaltet, selbe Art als ob man länger auf dem BMS tastschalter bleibt. Kurzum die Firmware die es hier zum Download gibt, liest das Bms aus und es lässt sich per Button Klick ...

[Seplos BMS and RS485 coms to PC](#)

Question? i just installed the Seplos 200 amp BMS, it connected to the inverter and has cycled at least 4 times. I have yet to connect the BMS to a PC using the battery monitor software. The default setting on the LCD display shows my battery capacity at 200 ah, but my actual battery capacity is 400 ah.

[Seplos BMS: Verkabelung und Einschalten](#)

Liebe Akku-Profis, ich habe endlich mein Seplos BMS erhalten und eingebaut. Leider hat es nicht auf abhieb funktioniert und ich brauche eure Hilfe. Ich habe eine Frage zur Verkabelung: Ich habe das erste Kabel des schwarzen Steckers an den Minuspol der ersten Zelle angeschlossen, dann alle weiteren Kabel an die Pluspole der Zellen 1-16 und dann das letzte ...

[Seplos BMS to SunSynk Inverter Cable](#)

I am very new to all this but am in the process of installing a Seplos 15.5KW battery with a 200A BMS through a SunSynk 8.8 KW Inverter. I understand I need to connect the battery BMS using the CAN port to the inverter. I am not sure what cable I need, is this something I can buy or do I need to make a special RJ45 cable up. Thanks in advance.

Seplos BMS "Output Short Circuit Protection"

Seplos think it might be a BMS issue, hopefully they'll send me a new one . J. jsolar New Member. Joined Oct 15, 2021 Messages 44. Nov 22, 2022 #19 I had a similar problem. I turned off shortcut protection in the Solar monitor app and then bms exploded. One FET burned out.. I

replaced the FET and now it works fine.

SeplosEU Batteriespeicher

Gegründet im Jahr 2017, ist die Seplos Technology Co., Ltd. ein führender Hersteller, der sich auf die Forschung, Entwicklung und Produktion von Lithium-Batterien für Energiespeicherlösungen spezialisiert hat. Alle unsere Produkte entsprechen internationalen Qualitätsstandards und werden in verschiedenen Märkten weltweit sehr geschätzt.

Seplos BMS with Growatt SPF 6000T , DIY Solar Power Forum

2. The Growatt unit has BMS and RS485 ports, with the manual indicating that the BMS port should be used when connecting the unit to a lithium battery. However, being that there is an RS485 port, and the Seplos BMS is RS485, I'm wondering if that is correct? 3. The Seplos unit has two RS485 ports (RS4851 and RS4852).

Seplos BMS: Time Out RS485 (EEL Battery Box)

Hallo! Ich habe vorletzte Woche die EEL Battery Box mit dem Seplos 200A BMS (ohne Bluetooth) aus China erhalten. Leider scheint es mir unmöglich eine Verbindung mit dem Seplos BMS aufzubauen. Das Display funktioniert ohne

Probleme und zeigt auch Daten vom Akku an. Mit der "Battery Monitor" Software (2.8 und 2.9 getestet), dem beiliegenden original ...

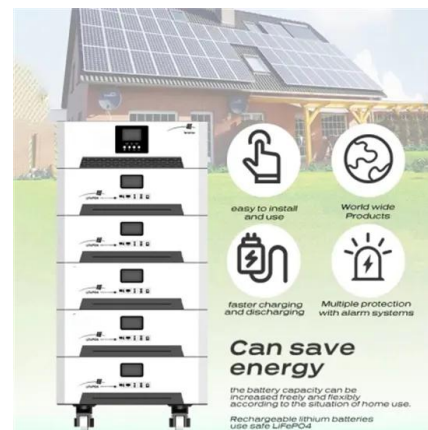

[welches Seplos? überhaupt Seplos?](#)

Moin ihr! leider hab ich viel zu spät angefangen mich mit dem Thema zu beschäftigen, und jetzt brauch ich dringend ein BMS. Ich hatte die ganze Zeit ein SEPLOS geplant. Eckdaten: 48V 16S LiFePo 280Ah, zum Laden 7x Victron 100/20, aber 10 + 4 x '445W' Module, max Ladestrom also wohl eher 100A Entladen aktuell bis 2500W (also gut 50A), ...

[seplos smart bms](#)

This Seplos BMS 2.0 is satisfied for 48V 150A charge-discharge current batteries. Models 7s, 13s, and 14s are for NCM battery, while 8s, 15s, and 16s are for LiFePO4 battery, do not mix use. The primary function of the battery management system is to prevent overcharging, over-discharging, overcurrent, and overheating of lithium batteries.
