Proven Tracker Solutions that are Simple to Own.

With over 15 years of proven Convert technology, Valmont Solar is helping to reshape the renewable energy industry. We are proud to offer reliable, long-lasting solar trackers that optimize your project's generation with lower costs to install and maintain.

PV tracker supports solar power and crop co-existence

Equipping four tracker rows with Valmont Solar's Convert Control System allows the capability for continuous monitoring of parameters such as humidity, soil irradiance, and air/soil temperature to support production optimization, while reaching a nominal peak power of about 20KWp.

A potential of the technology is that the trackers move

Valmont Solar inaugura fábrica de trackers em Minas Gerais

A Valmont Solar inaugura na quinta-feira (11/01) uma nova unidade produtiva de trackers para abastecer um mercado no qual acumula 2 GW de equipamentos instalados. Os componentes eletrônicos, antes produzidos na Itália, serão incorporados à linha de produção que já tem 80% a 85% de conteúdo local.

Valmont Solar Honored with Most Innovative Company Award

Valmont Solar's Advanced Agrivoltaic Single-Axis Solar Tracker, powered by Convert Technology[®], is set to revolutionize the agricultural industry by enabling farmers to integrate crop production with sustainable energy generation. Greg Turi, President of Global Solar and Telecom for Valmont, reflected on the company's legacy and future: "For

First-ever solar tracker to earn circularity certification

In the EMEA Region, Valmont validated the Convert[®] Single-Axis Solar Tracker's sustainable credentials beyond supporting clean energy production to also include sustainable

manufacturing. The Convert tracker product line secured the very first New Circularity (NCI) Certificate Using its circularity index, the ICMQ Institute assessed how well we minimize ...
