Overview

Is SEG solar building a 5GW Topcon solar plant in Indonesia?

Image: SEG Solar. Solar manufacturer SEG Solar has started construction on a 5GW TOPCon vertically integrated—from ingots to modules—solar PV plant in Indonesia. Construction started less than six months after the company unveiled its plan to build the plant in May 2024.

What is SEG solar doing in Indonesia?

SEG Solar, a US solar panel maker, has signed a land-utilization agreement with Kawasan Industri Terpadu Batang (Grand Batang City), the biggest industrial estate operated by a state-owned enterprise in Indonesia. The deal is part of a \$500 million plan to make silicon ingots, wafers, cells, and solar panels.

What is the SEG Indonesia solar industrial park project?

Located within Grand Batang City, in Central Java Province, the SEG Indonesia solar industrial park project will have an investment exceeding \$500 million and will cover over 40 hectares. Phase one of the project is set to build ten n-type cell production lines, aiming for an annual capacity of 5 GW, with completion anticipated by Q2 2025.

Where is SEG solar based?

United States-headquartered solar module manufacturer SEG Solar (SEG) has started construction works on its integrated photovoltaic industrial park in Kawasan Industri Terpadu Batang (KITB), Indonesia, 390 km east of Jakarta.

What is SEG doing in Indonesia?

This initiative marks SEG's commitment to global expansion and investment in Indonesia, aiming to establish a 5GW annual production capacity for silicon ingots, wafers, cells, and modules, making it the largest vertically integrated photovoltaic industrial park in Indonesia.

What is SEG solar's new industrial park?

The industrial park will be involved in the entire production process of silicon ingots, wafers, cells, and modules. The development of the new facility highlights SEG Solar's commitment to improving its manufacturing capabilities. Credit: SEG Solar.
