Qair signs 5.8-MWp floating solar PPA in Seychelles

The signing took place onboard Energy Observer, a renewable energy and hydrogen powered vessel. Launched in 2017 in France, the vessel serves as a laboratory for ecological transition. Floating solar project schedule in Seychelles hit by COVID-19 - report. Jun 30, 2020. Work on Qair's 5.8-MW Seychelles floating PV park to start in July. Mar

Clean energy

Overview. The Republic of Mauritius is still heavily reliant on fossil fuels to meet its demands for electrical energy. As per the Renewable Energy 2030 for the electricity sector for Mauritius, in 2018, 79.3% was generated from non-renewable sources, principally petroleum products and coal and 20.7% from

renewable sources, mainly bagasse, hydro, wind, landfill gas and solar.

(SEYCHELLES EDITION)

The expansion of renewable energy, and new and emerging technologies applied to the energy sector, could contribute to ensuring more universal access to affordable, reliable and modern To better prepare for the coordinated participation of the Seychelles in the project through engagement with the key relevant stakeholders in the Seychelles
