De energietransitie in Aruba, Curaçao en Sint Maarten

De behoeften en mogelijkheden om de energietransitie vorm te geven op de Nederlandse eilanden in Caribisch gebied - Aruba, Curaçao en Sint Maarten - zijn anders dan in Europa. In dit onderzoek is er gekeken naar verduurzaming van de elektriciteitssystemen en wegtransport op deze eilanden en de kosten die

dit met zich meebrengt.

Energynautics: Solar panels key to St. Maarten's energy future, ...

In 2021, the previous government led by Silveria Jacobs commissioned New York-based consultancy firm Gridmarket to create a roadmap for energy transition in St. Maarten. Energynautics and TNO reached similar conclusions regarding the viability of solar photovoltaic (PV) installations as the best renewable energy option for St. Maarten.

National Energy Policy National Energy Policy f

On a macro-economic level, energy costs are of great concern for the Government of Sint Maarten. In 2012 Sint Maarten spent a total of NAf 264.8 million on importing of oil products, which comprises a remarkable 18% of the total GDP1. This shows the heavy dependency on imported oil for Sint Maarten, and its country's vulnerability as this
