

Solar Energy South Africa

Small photovoltaic glue board size standard

Overview

One of the best ways of economically fitting small solar panels is with Velcro. Velcro strips of all shapes and sizes are available very cheaply – for example here: [Velcro strips](#). These strips.

For larger panels, or for panels to be fitted to moving vehicles (camper vans, boats etc) it is necessary to ensure that the solar panels are more securely.

As pictured above, there are a wide range of alternative mountings which can be screwed into the aluminium frames typically supplied with 5+ Watt solar panels. In order to use.

A better solution than bonding kits is to use a universal solar panel mounting set. These are typically made up of four robust corners mounts which can be screwed or glued to the mounting location. The aluminium frame of the.
