Stromwandlung

Socomec Gruppe. Unternehmensprofil Unser Fachwissen Mit ihrer flexiblen Modularität bietet MODULYS GP unterbrechungs- und risikofreie Erweiterbarkeit der Leistung bis zu 200 kW und ist damit die ideale Lösung für spontane Leistungsaktualisierungen oder planmäßige schrittweise Leistungsupgrades vor Ort. So lässt sich die installierte

MODULYS XM

Modulys XM is a modular, scalable and redundant UPS system based on plug-in and hot-swap power modules. The modularity enables power scalability by simply plugging one or more additional modules into the existing system (up to 13 modules per system).

MODULYS GP

With its flexible modularity providing seamless and risk-free power scalability up to 200 kW, the MODULYS GP range is the ideal solution for unscheduled site upgrades or incremental power evolutions. The installed power can be increased up to 200 kW by adding hot-swap plug-in power modules for incremental steps of 25 kW.

Alta potenza

Il MODULYS XL è un UPS modulare basato su moduli di potenza da 200 kW. La potenza di un singolo UPS può essere aumentata fino a 1200 kW e il sistema può includere fino a 4 unità in parallelo. - Gateway IoT per servizi cloud Socomec e app SoLive UPS per dispositivi mobili. - Display touchscreen remoto. - Estensione Com-slot supplementare

MODULYS GP

MODULYS GP range is the ideal solution for unscheduled site upgrades or incremental power evolutions. The installed power can be increased up to 600 kW by adding hot-swap plug-in power modules for incremental steps of 25 kW. Designed with no single point of failure, the MODULYS GP offers all the advantages of the Green Power 2.0 technology
