

Solar Energy South Africa

Solar Power Generation Initiative

Overview

What is Space Based Solar Power?

Space Based Solar Power refers to harvesting solar energy in space and beaming it to earth, thus overcoming the intermittency of terrestrial renewable energy. This concept offers several benefits, including clean and continuous base-load energy with much lower land usage than conventional renewables.

What is the Space Energy Initiative?

The Space Energy Initiative is a program that brings together government, research, and industry in the space and energy sectors to develop and demonstrate technology.

What is the future of solar energy?

The Future of Solar Energy considers only the two widely recognized classes of technologies for converting solar energy into electricity — photovoltaics (PV) and concentrated solar power (CSP), sometimes called solar thermal) — in their current and plausible future forms.

What is the IEA photovoltaic power systems technology collaboration programme?

The IEA Photovoltaic Power Systems Technology Collaboration Programme, which advocates for solar PV energy as a cornerstone of the transition to sustainable energy systems. It conducts various collaborative projects relevant to solar PV technologies and systems to reduce costs, analyse barriers and raise awareness of PV electricity's potential.

What is the Space Energy Initiative (SEI)?

The Space Energy Initiative (SEI) will bring together government, research and industry in the energy and space sectors to develop and deliver a co-ordinated programme of technology development and demonstration.

Could solar power 'enormous' help address future energy shortages?

Josef Aschbacher, who is Esa's director general, told BBC News that he believed that solar power from space could be of "enormous" help to address future energy shortages.

Solar Power Generation Initiative

[Land Art Generator Initiative](#)

The Land Art Generator (LAGI) brings together artists, architects, scientists, landscape architects, engineers, and others in a first of its kind collaboration. The goal of the Land Art Generator is to see to the design and construction of ...

Andhra CM calls for turning every house into solar ...

19 ????· Amaravati: Every house and office in Andhra Pradesh should be equipped with solar energy, said Chief Minister N. Chandrababu Naidu on Monday while calling for steps towards achieving self-reliance in power ...

The Future of Solar Energy , MIT Energy Initiative

The Future of Solar Energy considers only the two widely recognized classes of technologies for converting solar energy into electricity -- photovoltaics (PV) and concentrated solar power (CSP), sometimes called solar thermal) -- in their ...
