Could solar power be the future of energy in Congo?

Congo is one of the top five oil producers in Sub-Saharan Africa. But despite its rich energy resources, the electrification rate is low, especially in rural areas, mainly because of a lack of electricity infrastructure. But solar power could be the future as it is also said to be cheaper for households.

How many Solar Ambassadors are there in the DRC?

We have 3,500+ Solar Ambassadors in our network, working across 22+ provinces. Between them, they distribute 10,000+ products every month. 90% of Congolese people lack access to electricity. We want to see energy poverty eliminated in the DRC by 2030. Our cost effective systems help off-grid customers power a wide range of appliances.
