The Territory of Christmas Island is an Australian external territory in the Indian Ocean comprising the island of the same name. It is located approximately 350 kilometres (190 nautical miles) south of Java and Sumatra and about 1,550 km (840 nmi) north-west of the closest

point on the Australian mainland has an area of 135 square kilometres (52 sq mi).

Solar Islanding and Anti-Islanding: What You Need to Know

With a safe solar island system, the inverter assumes a highly complex but crucial role during a power outage: First, your inverter completely removes your home from the grid to fulfill anti-islanding requirements. Your inverter then uses a transfer switch to connect your home directly with the solar power system in island mode.
