Solar Frontier Achieves World Record Thin-Film Solar Cell ...

Solar Frontier, the world's largest CIS solar energy provider, has set a new world record for thin-film solar cell efficiency. In joint research with the New Energy and Industrial Technology Development Organization (NEDO) of Japan, Solar Frontier achieved 22.3 percent conversion efficiency on a 0.5cm² cell using its CIS technology.

Video: Solar Frontier identifies UK as 'key market'

Japanese solar manufacturer Solar Frontier has identified the UK as one of its key three European markets. Speaking to Solar Power Portal, Thomas Haering, Solar Frontier's sales director for Europe and the Middle East explains the company's increased focus on the European solar market, specifically the rapidly growing UK market.

[82 MW solar project for Guinea](#)

The German company is currently working on an 82 MW solar project in Guinea, one of the largest independent solar power production projects in the West African region. The project, spread over two sites, will bring clean and cost ...

Solar Frontier Americas acquires Pioneer Solar Project from GCL

Solar Frontier is an independent power producer

(IPP) and solar development firm, which acquires and develops utility-scale solar power generation plants. Solar Frontier Americas IPP business unit CEO Charles Pimentel said: "A shift is underway with traditional fossil fuel providers to support investments for clean energy that benefit the

Harnessing the Potential of Guinea Conakry's Renewable Energy Sector

Guinea enjoys a mean annual insolation of slightly under 5 kWh/ m² per day and a sunshine duration of 2,700 hours per year, making it a viable location for the construction of grid-connected solar power facilities. Additionally, the country has significant hydropower potential, with a gross theoretical capacity of 26,000 GWh/year.
