Wallis and Futuna

In 1991, BNP Nouvelle-Calédonie, a subsidiary of BNP Paribas, established a subsidiary, Banque de Wallis-et-Futuna, in the territory. Two years earlier Banque Indosuez had closed its branch at Mata-Utu, leaving the territory without any bank. Following this, the Bank of Wallis-and-Futuna (BWF) with its head office in Wallis was created in 1991.

Good Energy launches REGO service for feed-in-tariff generators

Nigel Pocklington, CEO of Good Energy (pictured), says that the service will provide fairness to FIT microgenerators. Image: Good Energy. Renewable energy supplier Good Energy has revealed a new service for feed-in tariff (FIT) electricity generators to register them for the Renewable Energy Guarantees of Origin (REGO) scheme.

[Our 8 Best Solar Generator Picks \(2024\)](#)

Solar generators are available as both portable generators and backup home generators. Most solar generators are portable, lightweight, and have a built-in handle. The best portable solar generators are used to provide power for construction sites, campers, events, or other settings where access to electricity is limited.

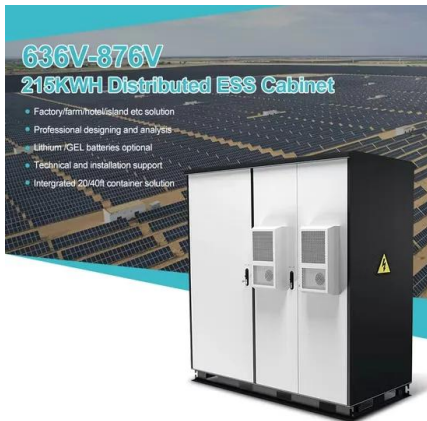

How innovative PPA contract structures benefit solar ...

They allow generators and buyers to agree on a lower fixed price and share the reward of potential upside from higher wholesale prices as well as the downside from lower price levels, giving each

Visiting Wallis and Futuna is a journey to the heart of Polynesian culture, where time seems to stand still. With its untouched landscapes, warm-hearted locals, and a vibrant traditional way of

life, these islands offer a unique travel experience that will leave a lasting impression on any adventurer's soul.

Retrofitting Grid-tied Solar Systems for Backup Power

"Morningstar's DC Coupled backup solution for grid-tied solar systems is a game changer. Now people can use the PV array that they already paid for to create backup power when the grid goes down. This simple, clean, scalable approach has many advantages over generator and AC coupled solutions." - Sequoia Cross, CEO, Backwoods Solar

Frontier halts 120MW solar-plus-storage site in Western Australia

Generators in the Wholesale Electricity Market (WEM) receive a fixed dollar payment per megawatt from the AEMO based on the Reserve Capacity Price (RCP). These payments would be guaranteed for

The risk of renewables price cannibalisation may be exaggerated

Wholesale electricity price analysis in California from 2013-17 has found significant cannibalisation effects of both solar and wind, with these effects growing as penetration increases. Recent analysis of price cannibalisation in Germany from 2015 to early 2021 also confirmed its presence in that market: more solar and wind production led to
