Solar harvest solutions Northern Mariana Islands

Northern Mariana Islands , Powertec Information Portal

The Northern Mariana Islands, a US commonwealth situated in the Western Pacific, presents unique challenges for technology and telecommunications due to its remote geography and sparse population. Spread over 14 islands and with a total population around 49,000, the distribution of residents is highly uneven, with the majority located on the island of Saipan.

AMPYR Distributed Energy makes major partnerships

AMPYR has inked a £10 million framework agreement with Harvest Green Developments, allowing the two companies to work together to provide long term power purchase agreement (PPA) financing for businesses seeking to decarbonise their operations. As part of the deal, Harvest Green has sold its 1.4MWp solar portfolio to AMPYR.

Republican states benefitting most from IRA - report

Lucas Olinyk, president of Harvest Solar, a clean energy company based in Jackson, Michigan, said: "Michigan has arguably benefitted from the IRA more than any other state, and that has certainly been our experience here in Jackson County. It feels like clean energy is at a tipping point - and the IRA is an accelerant."
