Adding a solar battery storage system to my existing solar setup was a smart decision. It ensures that I can use solar energy even during nighttime or power outages. The compact design and ease of integration with my solar panels make it a valuable addition. The only downside is the initial cost, but the long-term benefits outweigh the investment.

Dubai Airports announces major solar energy project

The phased project, which will be fully operational by 2026, involves the installation of 62,904 solar panels across Dubai International (DXB) and Dubai World Central - Al Maktoum International (DWC) airports, and is set to generate 60,346 MWh annually.

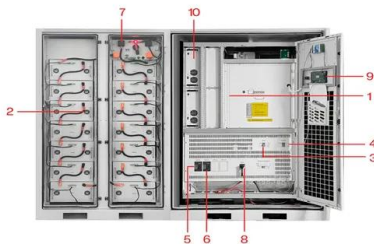

[Harnessing the power of the sun](#)
