Solar Panels & Contractors in Washington , LetsGoSolar

Though Washington is an eco-friendly state, it ranks 31st in the number of solar panel systems installed in the country, according to the Solar Energy Industries Association. This is likely because the state only has 58 clear days during the year. However, even in Washington, using solar panels can still benefit homeowners and businesses.

Contractors: How to get started installing solar panels

In fact, jobs in the solar energy solutions industry are expected to grow by nearly 30 percent by 2030, signaling a stable employment sector. What are the steps to installing solar panels? Installing a solar panel system has a number of steps, including: Site evaluation; System design; Permitting; Ordering equipment; Installation; Inspection

Solar Panels & Contractors in Virginia , LetsGoSolar

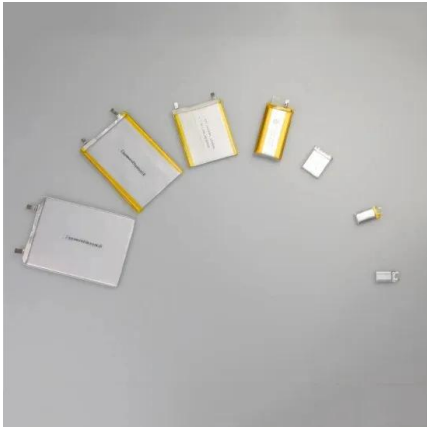

Average Electricity Costs in Virginia. High utility costs generally drive up the use of solar power. However, in Virginia, residential electricity is about \$0.12 per kWh, which is near the national average. According to the U.S. Energy Information Administration, the price has been relatively steady since 2011, indicating that there hasn't been a huge shift in the supply or demand.

Solar Panels & Contractors in Wyoming , LetsGoSolar

Wyoming is slow to get on the solar train and currently ranks 36th nationally for solar capacity installed as of 2019, according to the Solar Energy Industries Association. The state has invested \$115 million in solar, hoping to get alternative energy off the ground. With the low cost of installing solar panels and favorable levels of sunlight, the trend towards solar could grow.

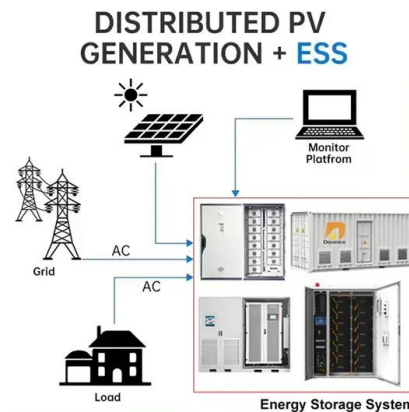

Solar Panels & Contractors in Arizona , LetsGoSolar

Commercial properties can receive a tax credit for solar energy systems of up to 10 percent of the installation costs, not to exceed \$25,000 per building or \$50,000 per business annually. Energy product manufacturers that expand or establish a business in Arizona can also receive a property tax credit for up to 10 percent. There is a statewide annual cap of \$70 million per company.
