Yellow Solar is a Lilongwe-based off-grid start-up that distributes solar home systems that improve access to electricity

Solar Kits

The wattage that you can harness generally increases with the amount you spend on your solar home kit. More expensive models have more solar panels. These relatively inexpensive kits can save you significant amounts of money on your energy bill. A solar home kit is a great investment to supply your home with clean, renewable power.

Malawi

MALAWI . Malawi is a landlocked country in southeastern Africa, with a rapidly growing population and an interesting energy supply. Although over 70% of Malawi's electricity comes from hydropower, just 12% of the population had access to electricity in 2018. So, if it is to meet its goal of achieving 100% electrification by 2030, Malawi needs even more power -- and from more
