Overview

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.

When was the first off-grid solar system installed in Fiji?

In May 2002 Clay Energy commissioned the first off-grid solar base station power system for Vodafone Fiji, which led to the rollout of these power systems to six mobile operators in the region. Clay Energy's first PV grid-connect system (18kW) was installed and commissioned in 2008, being the first in the region.

Who makes the best solar inverter in Fiji?

Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji. Fronius, Sungrow, and Selectronic are renowned inverter manufacturers known for their exceptional quality and performance.

Why should you choose island solar Fiji?

Island Solar Fiji ensures its commitment to quality and reliability by exclusively partnering with trusted and reputable solar brands. Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji.

Who is a participating financial institution (PFI) in Fiji?

The SEFP partners with multiple banks and financial institutions in Fiji so that customers have more choice and flexibility in accessing financial assistance. Currently ANZ and FDB are the only Participating Financial Institution (PFI).

Who regulates refrigerators & freezers in Fiji?

Furthermore, the Department of Energy is the Regulator of the program and works closely with the Fiji Revenue Customs Authority in monitoring at border levels to ensure that importation of household refrigerators and freezers comply with the standards.
