Overview

Who installs solar panels in Cyprus?

Cypriot solar panel installers – showing companies in Cyprus that undertake solar panel installation, including rooftop and standalone solar systems. 49 installers based in Cyprus are listed below.

What are solar panels used for in Cyprus?

Solar panels in Cyprus are used for residential, industrial and commercial properties. Other than home use, many businesses install photovoltaic panels in Cyprus for self-consumption. That is, they use the energy the photovoltaic system generates directly, but cannot store any excess energy for following months.

Does Cyprus support photovoltaic systems?

The government of Cyprus, along with the RES and Energy Conservation Fund, offers support schemes for the installation of photovoltaic systems. This is because solar power is considered to be the future of energy and promoting the use of renewable energy sources is a priority.

What is a solar pump in Cyprus?

Solar pumps in Cyprus are pumps that work with the energy generated by solar panels. Solar pump maintenance is very important to ensure that the system works as it should and that the water is clean.

How long do solar panels last in Nicosia?

With over 2,500 home installations, we're proud to be one of the top experts in photovoltaics in Nicosia and we guarantee maximum return on investment: up to 25 years on solar panels and 12 years on the inverters.

Are solar street lights a good idea in Cyprus?

Solar lighting uses LED lights which are very beneficial. Solar street LED lights are water-resistant, cost-effective, and low maintenance. Moreover, their light attracts much fewer insects than regular streetlights. Solar LED streetlights in Cyprus have a longer lifespan and easier installation than common lights, hence the lower cost.
