Solar smart flower price Solomon Islands

Overview

How much does a smartflower solar panel cost?

Now, let's talk about the numbers. How much does the SmartFlower cost?

Before applying for all incentives and tax credits, the SmartFlower solar panel system ranges in price from \$25,000 to \$30,000 with the average cost to install at \$27,000. There are two models that you can choose from, and this is why the price can vary.

What is a smartflower Solar Flower?

The Smartflower solar flower is an all-in-one ground-mounted solar system with a tracker that follows the sun. However, it doesn't look like the solar panels you might be used to. Learn all about the product, how it compares to other solar options, and whether you should consider one for your home in our Smartflower solar review.

How much does a smartflower cost?

Near the end of 2017 the original Austrian manufacturer of the Smartflower filed for bankruptcy but the U.S. division remains independent and will continue manufacturing in the United States. The SmartFlower cost is currently \$16,900 for a single unit, but the Smartflower costs \$22,000 for a complete system with batteries included.

Where is smartflower Solar Flower installed?

However, it has been installed at a handful of U.S. houses and organizations like the Detroit Zoo and Mary Baldwin University. The U.S. division of Smartflower is currently based in Boston, Massachusetts. How is the Smartflower solar flower different from other solar options?

.

How is smartflower different from other solar panels?

A quick glance at Smartflower makes it clear how different this solar sculpture is from the solar panel systems we're used to seeing on rooftops or ground-mounted arrays. Aside from its looks, its dual-axis tracking capability allows Smartflower to generate up to 40% more energy than typical fixed solar panels, Gordon said.

What is the warranty on a smartflower solar panel system?

The SmartFlower solar panel system has a system warranty of 5 years and a module performance warranty of 25 years. This also differs from other solar panel systems that have 20 to 25-year warranties for both the system and performance. Even most ground-mounted systems with sun-tracking capability have 10-year system warranties.
