# Solar solution contact details U S Outlying Islands

## Overview

---

What is solar PV on a resort island?

Solar PV on a resort island a clear sustainability message to your clients and partners Swimsol provides a unique solution to achieve desired solar production capacity – floating solar powerplant at sea (offshore solar). SolarSea produces 5-10% more energy due to natural cooling at sea.

What is solarsea?

SolarSea is the first and the only time-tested commercial solar PV solution for the sea. Swimsol has worked on the world's first floating solar solution for the sea since 2009 All of the components are marine-grade, specifically for tropical sea environment.

Does swimsol offer a guarantee of the accuracy of enclosed information?

However, no guarantee can be given regarding correctness and accuracy of enclosed information. Swimsol - a global leader in floating solar PV for the sea. Leading solar energy company in the Maldives, island clean energy specialists.

What is rooftop solar for Islands?

Rooftop solar for islands Swimsol provides affordable and durable marine floating & rooftop solar PV systems for the tropics, where land space is limited. We make solar energy a hassle-free experience by handling all the tech & maintenance. We work with ultra-luxury resorts and small businesses alike – always aiming to provide great service.

What is swimsol solar powerplant at sea?

Swimsol provides a unique solution to achieve desired solar production capacity – floating solar powerplant at sea (offshore solar). SolarSea produces 5-10% more energy due to natural cooling at sea. Swimsol technology is already competitive in islands and tropical regions using diesel for power.
