Overview

Can you run a swimming pool off solar panels?

Absolutely. You can run a swimming pool entirely off solar panels by using PV panels to generate electricity for the pool's pump and heater. You can also use solar pool heating panels to directly heat the water. This setup makes your pool more sustainable and can save on energy costs.

Are solar panels a good investment for a swimming pool?

With temperatures rising, solar panels on swimming pools can not only provide relief on a hot day, but help you contribute to reversing climate change. Either way, solar panels for your swimming pool are a worthwhile investment. What's on this page?

01 Can you get solar panels for your swimming pool?

.

Can solar panels heat a pool?

Solar panels are versatile and work with different pool sizes and types, so whether your pool is small, large, above, or in-ground, you have the option to heat your pool with solar energy. Pool need maintenance?

How Do Solar Panels Work?

Why Heat a Swimming Pool with Solar Energy?

How Does Heating a Pool with Solar Panels Work?

.

How many solar panels do you need for a swimming pool?

According to the Swimming Pool and Allied Trades Association (SPATA), you

should aim for panel coverage of at least 50% of your pool's surface area. For a typical 11mx4m pool, that's a minimum of 22m² of panels. The number of solar panels you'll need to power a swimming pool varies depending on the pool's surface area.

Should you invest in a solar pool heating system?

You can also use solar pool heating panels to directly heat the water. This setup makes your pool more sustainable and can save on energy costs. And with the cost of solar panels reducing massively over the past decade, it's never been a better time to invest.

Can solar power warm up a pool?

By harnessing the sun's energy, solar power warms up your pool, extends your swimming session and slashes your energy bills, helping you to make your money back on the initial upfront costs of solar panels. This can be a big plus if you're in the UK, where our temperamental weather can make conventional pool heating unexpectedly pricey.
