

Solar Energy South Africa

Solar wind co uk Myanmar

Overview

Does Myanmar have any wind power projects generating electricity?

Myanmar does not have any wind power projects generating electricity at present. In March 2016, the Ministry of Electricity and Energy (MOEE) signed a memorandum of understanding for the private construction of a 30 MW wind turbine project subject to the successful conclusion of feasibility studies.

Who is Myanmar Solar power trading?

Myanmar Solar Power Trading Co.,Ltd is established in 2011 and we are one of the leading full-service providers for C & I projects, residential, industrial and large scale solar projects in Myanmar. From a single point of contact, we provide solar PV designs, calculations, consultations, installations and repair and maintenance services as well.

Is there solar power in Myanmar?

Myanmar has high solar irradiation levels in many areas, but no large-scale solar power systems have been installed due to the largely mountainous terrain, protected areas, and limited grid system. Solar power is currently an option only for rural and off-grid applications in Myanmar.

Is wind energy economically feasible in Myanmar?

To assess what portion of Myanmar's wind energy technical potential could be economically feasible, the estimated levelized cost of electricity (LCOE) of wind energy in Myanmar was compared with the current costs of other alternatives. Wind power in Myanmar has an estimated LCOE of \$0.093/kWh-\$0.114/kWh.

Where are wind turbines operating in Myanmar?

Wind turbines are currently operating in Myanmar, specifically at the Technological University (Kyaukse), Shwetharlyoug and Dattaw mountains in Kyaukse Township, and the Government Technical High School (Ahmar) in the

Ayeyarwady region. Two memorandums of understanding for renewable energy projects have been signed.
