

Solar Energy South Africa

South Africa solar companies with payment plans

Overview

Are South Africa's solar projects affordable?

With innovative financing mechanisms helping overcome the barrier of high upfront solar costs, many companies are now offering South Africans affordable options to adopt renewable energy. As the largest power utility, Eskom provides loans primarily for commercial and industrial solar projects at interest rates of up to 10.5% over 10-15 years.

Eskom wants South Africans with solar to pay more

Eskom wants South African households and companies trying to reduce their reliance on its supply to pay more for the electricity they use from the utility. The power utility plans to do this by increasing the fixed capacity charges, which would disproportionately affect people and companies using less Eskom electricity.
