

Solar Energy South Africa

Spacewell energy by dexma Nauru

Overview

What is spacewell energy (DEXMA)?

Spacewell Energy (Dexma) is the Spacewell energy management tool that provides data-driven energy intelligence. Its SaaS solution enables facility and property managers, energy service providers and consultants to report on energy consumption, analyse usage patterns and inefficiencies, and detect anomalies in real-time.

What is DEXMA energy intelligence?

DEXMA provides data-driven Energy Intelligence. Its SaaS solution enables facility and property managers, energy services providers, and consultants to report on energy consumption, analyze usage patterns as well as inefficiencies, and detect anomalies in real-time.

How does spacewell energy - DEXMA detect work?

Use Spacewell Energy - Dexma Detect to get personalised savings recommendations based on your actual energy bills. No on-site audit or hardware installation required, ever. 30% of your buildings will generate 70% of total energy savings, but only real-time data can unlock your full energy footprint.

What is spacewell energy?

Against a backdrop of inflation and rising energy prices, Spacewell Energy offers solutions for organisations of all sizes and in all sectors to monitor and manage their energy consumption. These solutions enable businesses to make savings while adopting a more environmentally-friendly approach.

How many hardware integrations does spacewell energy platform (DEXMA) cover?

Spacewell Energy Platform (Dexma) covers more than 200 hardware integrations from 50 different vendors and counting. From sensors to

gateways, going through SCADAs and BMS, our integration team is always up for new challenges. Found a new box you want to use in your project?

No worries, we will work together to integrate it.

Who is DEXMA?

Dexma is the leading provider of energy management software for commercial and industrial buildings, energy service companies, and utilities.
