eco-SPARK Solar Pool Heating , UMA Solar Solutions

eco-SPARK is the next generation of solar pool heating. By extruding the collector tubes right inside a special glazing material, eco-SPARK significantly increases the performance of the collectors. This glazing material creates a greenhouse effect which preserves energy--resulting in more warmth in your pool when you need it most.

Tajikistan January Weather, Average Temperature

The average daily shortwave solar energy reaching the ground per square meter. Data Sources This report illustrates the typical weather for Dushanbe and Khujand, based on a statistical analysis of historical hourly weather reports and model reconstructions from January 1, 1980 to December 31, 2016.
