# Standard Dimensions of Photovoltaic Modules

## Overview

---

As you can imagine, you can get almost any size solar panel you desire, from single tiles to ones that cover the entire roof. There are even companies that will craft custom and bespoke solar panels for your roof. However, if you have a particularly small roof there's no need to be too worried as you can still install solar.

The majority of solar panels for sale in the UK average around 350 watts (W) in power for residential units. However, it's quite easy to get your hands on more powerful solar panels.

If you have a small home or want to power mobile vehicles like caravans and campervans, the good news is that there are many smaller-sized.

Below we have detailed some of the most common solar panel installations in the UK for domestic properties. Please note that both the costs and final power outputs are rough estimates and it's obviously not possible to know these as.
