## Storage battery one human Northern Mariana Islands

### Reducing battery procurement risk for US energy storage projects

The passing of the Inflation Reduction Act in August of 2022 included provisions that are significantly impacting the utility-scale battery storage industry. This includes the decoupling of storage from solar projects, allowing for standalone energy storage projects to qualify for Investment Tax Credits (ITC) up to 30%.

Removing the M.2 2230 solid-state drive from M.2 slot one; Installing the M.2 2230 solid-state drive in M.2 slot one

## The Future of Energy Storage: Battery Energy Storage Systems

The Vertiv(TM) DynaFlex BESS uses UL9540A lithium-ion batteries to provide utility-scale energy storage for mission-critical businesses that can be used as an always-on power supply. This energy storage can be used to smooth out power usage and seamlessly transition to an always-on battery-enabled power supply whenever needed.
