### [Infinite Power Generator \(Ultra Compact\)](#)

Its silent operation and efficiency make it the perfect power solution for your projects! The Ultra Compact Infinity Generator is the most compact infinite generator ever made in Stormworks, making it easy to install in even the tightest of spaces. Its small size doesn't compromise its power output, as it is capable of producing practically

### [Storworks Power](#)

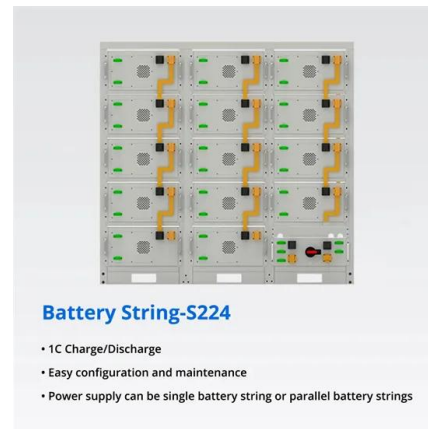

Storworks Power is a company focused on developing thermal energy storage solutions, operating within the renewable energy and industrial sectors. The company's main service involves providing reliable long-duration energy storage at a low cost, utilizing proprietary high-

temperature modular concrete blocks to store heat.

[Storworks Power](#)

Storworks Power . Project Long Duration Energy Storage Financing. Summary: Built a project finance model for this long-duration energy storage company's product to be used as a means of estimating appropriate specifications (size, power, etc.) and expected cash flows using historical energy pricing data. Provided guidance on financing options

**Testing finished on 'world's largest' thermal energy storage system**

Southern Company is a gas and electric utility, which owns the Gaston plant via subsidiary Alabama Power, while Storworks is the provider of the concrete thermal energy storage project

used in the project. More than 80 energy charge and discharge cycles on the project were successfully performed, with over 700 hours of total operation.

## Concrete elements exhibit energy storage, power output capacity

EPRI and Storworks collaborated on the concrete thermal energy storage (CTES) demonstration with Alabama Power parent, Atlanta-based Southern Co., and Department of Energy backing. Researchers see the technology as applicable to existing or new thermal power plants running on coal, natural gas or nuclear, or concentrating solar power.

**'World's largest' concrete thermal energy storage pilot completes**

Electric Power Research Institute (EPRI), in collaboration with Southern Company and Storworks, has completed testing of a pilot concrete thermal energy storage (CTES) system at Alabama Power's Ernest C. Gaston Electric Generating plant (Gaston). The companies are calling it the largest such pilot in the world.
