

## Solar Energy South Africa

# Sun create battery Lesotho

## Overview

---

What is Repp doing with Lesotho's first solar-battery mini-grid?

In 2019, REPP extended a LSL 7m loan to 1PWR to finance Lesotho's first solar-battery mini-grid at the village of Ha Makebe. This project became operational in 2021 and now services 215 households and businesses in the community.

Are solar mini-grids right for Lesotho?

Lesotho is one of the least electrified countries in the world, with a rural electrification rate estimated at below 20% - and solar mini-grids offer an opportunity to serve difficult-to-access locations.

Who is onepower Lesotho 1pwr?

Khotso! Welcome to OnePower Lesotho 1PWR is a fast-growing startup based in Lesotho whose mission is to provide affordable and reliable electricity services to off-grid villages, giving families, schools, health clinics, and local businesses the resources needed to grow and thrive.

Does Lesotho have a low electrification rate?

Lesotho, a landlocked nation surrounded by South Africa, has one of the lowest electrification rates on the continent, with about 62% of the population lacking access to electricity and with a rural electrification rate estimated at below 20%.
