What is Solar Masters SA?

Solar Masters SA is a company that offers full solar services from supplying of individual products to complete installations. They have complete packages for off grid and grid tie systems as well as back-up systems. Contact them today for a site assessment and they will guide you through the best suited system for your household.

Are there renewables in the Faroe Islands?

“In the Faroe Islands, we are blessed with renewables: we have wind, hydro and some sun in the summer; we also have tidal and wave power where we can see great potential,” says Nielsen. Since announcing its green vision in 2014, SEV has already done a lot to increase the share of renewables in its energy mix.

Will the Faroe Islands use more green energy in 2025?

Even more conservative scenarios predict that the Faroe Islands' current electricity consumption of approximately 350,000 MWh per year will increase to approximately 450,000 MWh in 2025. “The current discussion recommends using more green energy and especially the potential for wind energy is quite high,” says one of the islanders.

Can the Faroe Islands be a smart microgrid?

“The energy system in the Faroe Islands is an impressive example of how all

available energy resources can be integrated into a smart and innovative microgrid,” says Vehkakoski.

Is the Faroes going green?

Nielsen is Head of R&D at Eifelagið SEV, the publicly-owned, primary power-producer on the islands, and he has a clear vision: “Our future energy supply in the Faroes is green. We have set a goal of becoming 100% green by 2030 in terms of on-shore electricity.”
