

## Solar Energy South Africa

# Sun solar components The Gambia

## Overview

---

Why should the Gambia invest in solar energy?

To match the rising demand and to provide sustainable and accessible energy to all Gambians, the potential for solar energy investment is immense in The Gambia. The government of The Gambia seeks to increase RE's contribution to 40% from 2% presently in the coming years.

Will a new solar plant increase energy demand in the Gambia?

Energy demand in The Gambia has increased by 5.5% per year in recent years and today's connection of the new 23 MWp solar plant to the national energy grid will significantly increase Gambia's current generation capacity of 98 MW and enable electrification of rural areas. A strong commitment.

How does a large scale solar PV project benefit the Gambia?

The project contributes to gainful employment creation in The Gambia with 1,250 direct jobs created from the construction phase to operation and maintenance. To ensure sustainability, a three-year operations and maintenance contract (O&M) has been signed as large scale solar PV is entirely new to the sector.

Why is NAWEC launching a solar plant in the Gambia?

This marks the first time in the Gambia's history where a utility scale solar plant of 23 Megawatts Solar PV capacity and 8-Megawatt hours battery storage is being commissioned. This solar plant allows NAWEC to finally shift away from expensive heavy fuel oil-based generation which is costly and harmful to the environment.

Is Gambia ready for a new era of renewables?

Gambia: strong international support for a new era of renewables with inauguration of historic 23 MWp solar plant A significant strategic project with strong substantial economic and social impacts, the recently inaugurated solar

photovoltaic plant in Jambur is poised to supply electricity to approximately 18,500 households.

### SERVICES

Suncity Global approaches residential solar operations and maintenance using best practices derived from our foundational experience servicing and repairing thousands of solar energy systems. We have an expansion plan in motion with a few new stores coming up in The Gambia, to make our products more accessible to our clients all over the

### [NSP The Gambia](#)

This NAMA Support Project (NSP) Investing in Grid-Connected Solar PV in The Gambia provides incentives for the private sector to invest in solar capacity. The implementation of the project will result in 10.5 MW of installed solar capacity - 6.0 MW of installed capacity at Farafenni and 4.5 MW installed at Basse - servicing both of the

### All In One Enterprise Gambia Ltd. (solar equipment)

All In One Enterprise Gambia Ltd are a distributor of solar energy products such as PV solar panels, solar hot water heaters, inverters & related equipment. meters, solar water pumps and components. They import their units from the main manufacturers which includes monocrystalline and polycrystalline panels from Evergreen, Sharp, BP Solar
