Sundrive solar North Macedonia

Malaysia's VCI Global to buy 1.14-MW solar farm in N Macedonia

2 ???· Malaysia-based diversified holding company VCI Global Limited (NASDAQ:VCIG) has signed a term sheet to acquire a 1.14-MW solar farm in North Macedonia for around USD 1.26 million (EUR 1.21m).

EU-funded solar plant starts operating in North ...

The first large-scale solar plant in North Macedonia - financed with the support of the European Union, WBIF bilateral donors and the European Bank for Reconstruction and Development (EBRD) has been connected to the ...

Solar cell innovator Sundrive restructures for future ...

Sydney-based Australian copper-plated solar cells innovator Sundrive Solar, has announced a restructure of the company, which it explains as a necessary precursor to the next phase of commercialisation.. A number of employees have been laid off and Co-founder and Chief Executive Officer Vincent Allen has assumed the role of Chief Technical Officer, ...

[Solar Technology Start-Up.](#)

Sydney

SunDrive is a solar technology start-up based in South Sydney, Australia. We're creating unique solutions to reduce the cost of high-efficiency solar cells, whilst enhancing their performance and sustainability by utilising more abundant materials. We've grown from a small PhD project in a garage to producing some of the most efficient solar cells ever made in the world.

SunDrive Solar confirms job cuts as it 'sharpens focus on solar'

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

Life at SunDrive , SunDrive Solar , Solar Technology Start-Up

At SunDrive, we believe that your potential should be maximised, regardless of your experience or qualifications. We are a team of doers and are purpose driven. With this in mind, SunDrive is open to anyone that believes they can contribute to our mission. Drive, character and ability is the order in which we value our team.

SunDrive

SunDrive is an Australia-based company that creates solutions to reduce the cost of high-efficiency solar cells, whilst enhancing their performance and sustainability by utilizing more

abundant materials. The Company is working to develop ultra-efficient passivated contact solar technology which is free of silver and is mainly focused on copper solar cells.

SunDrive And Trina Team Up For Australia's Solar Sunshot

Australian PV innovator SunDrive will lead an application for funding under the country's Solar Sunshot program in a joint venture with China's Trina Solar. SunDrive has been developing technology to replace silver in PV cells with copper, which is a more abundant, efficient and cost-effective material. The firm's first major claim to

Capral-SunDrive partnership to drive sustainability and supply

...

Capral Aluminium and SunDrive Solar have entered into a Memorandum of Understanding to explore the development of a supply partnership focused on advancing sustainability and developing a

Australia's SunDrive plans solar manufacturing JV with Trina Solar

Australian solar technology company SunDrive Solar on Monday said it has signed a memorandum of understanding (MoU) with

Chinese solar manufacturer Trina Solar Co Ltd (SHA:688599) to form a majority Australian-owned joint venture (JV) with the aim of establishing solar manufacturing capabilities in Australia.

Sundrive Company Profile 2024: Valuation, Funding & Investors

Sundrive General Information Description. Manufacturer of material-abundant solar cells intended to replace the use of silver in the cell manufacturing process. The company's solar cells aim to reduce the cost of high-efficiency solar cells, whilst enhancing their performance and sustainability through the usage of abundant materials such as copper, enabling the energy industry to carry ...

"Concrete proof:" SunDrive marks major milestone on path to ...

Australian solar innovator SunDrive has passed a major milestone on the road to commercialising its homegrown copper-based PV technology, after demonstrating that more than 99 per cent of the

SunDrive teams with Trina on solar tech development

Solar cell technology innovator SunDrive Solar will join forces with Chinese PV manufacturing

News Page , SunDrive Solar , Solar Technology Start ...

SunDrive is a solar technology start-up based in South Sydney, Australia. We're creating unique solutions to reduce the cost of high-efficiency solar cells, whilst enhancing their performance and sustainability by utilising more abundant ...

Solar panel hopeful SunDrive - backed by Mike Cannon-Brookes ...

SunDrive, a high-tech solar panel manufacturer backed by Mike Cannon-Brookes and Malcolm Turnbull, is halving the number of staff even as it courts global partners for its next stage of development.

SunDrive Solar, Trina Solar to jointly make solar panels in Australia

Australia's SunDrive Solar will join forces with Chinese PV manufacturer Trina Solar to develop "cutting-edge" manufacturing facilities and bring Australian-made solar panels to market at scale.

SunDrive, Trina Solar partner for Australian solar manufacturing

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

Scaling up SunDrive's advanced solar PV manufacturing

By combining these benefits, SunDrive is aiming to produce one of the world's most advanced solar modules at an installed price that is 20-30 per cent cheaper than other high efficiency solar modules on the market. SunDrive plans to accelerate the development of its copper-plated solar PV technology to commercial-scale production capacity of

Scaling up SunDrive's advanced solar PV manufacturing

By combining these benefits, SunDrive is aiming to produce one of the world's most advanced solar modules at an installed price that is 20-30 per cent cheaper than other high efficiency solar modules on the market. ...

Homegrown solar sector strides forward with SunDrive's proof of ...

Sydney-headquartered solar technology company SunDrive Solar has achieved a copper plating production yield of more than 99% at its commercial pilot facility in Sydney, turning the cells into modules. SunDrive has developed a cell metallisation technology that uses copper, which is approximately 100x cheaper and 1,000x more abundant than

Sundrive Solar and Trinasolar join forces to boost Australia's

solar

SunDrive and Trinasolar have established technology collaborations since 2019. Trinasolar has an outstanding reputation in the Australian market. Along with their decades of experience in global solar manufacturing, Trinasolar is the ideal choice to work with SunDrive to bring Australian-made solar panels to market at scale.
