Overview

When did Sungrow enter the Israeli market?

Sungrow entered the Israeli market in mid-2020 and signed its first ESS deal with Doral in March 2022 with a 253 MWh energy storage project. Doral Energy is one of the largest renewable energy developers in Israel, and its total pipeline in both Solar Storage I & II government tenders reaches over 1.4 GWh.

What can Sungrow do for You?

Unleash the strength of our ESS technology and unlock unlimited possibilities for your energy needs. Large-scale C&I needs and utilities can realize the full potential of clean energy with Sungrow's large-scale battery storage system, assuring a consistent supply of power, improving grid stability, and speeding up the shift to sustainable energy.

What makes Sungrow unique?

Israel, though a country with scarce land and natural resources, attaches great importance to technological innovation. As one of the most innovative and energetic PV and ESS players, Sungrow made its first entry into the Israeli market two years ago and has built a professional local team offering responsive service.
