# Sunshine awning solar panels

## Overview

---

What is a solar awning?

There are two different definitions of solar awnings. One is an awning that runs with its solar panel. The awnings extend and retract automatically using solar power. The second is awnings lined with solar panels that provide shade and generate power. However, they don't generate that much electricity, so the technology isn't quite there yet.

What is a sun and rain all weather awning?

Our E174 sun and rain all weather awnings offer reliable sun protection even in windy areas while giving increased rain shower suitability. Having sturdy construction and stable leg posts these sun and rain all weather awnings feature an ingeniously designed spring mechanism keeping their fabric taut.

What is Sunshine flexible solar?

Sunshine Flexible Solar range boasts some of the highest efficiency cells in the World from the USA with efficiency levels up to 21.5%, meaning higher power generation of between 25-30% more than conventional PV modules of the same size.

What is the Sunshine flexible solar power range?

The Sunshine Flexible Solar power range covers low to medium battery charging requirements, effectively maintaining batteries whilst away and typically replacing some of the power consumed whilst on board to larger modules suitable for liveaboards and wild camping assisting in keeping the refrigerator and other appliances running.

Can a solar panel be fitted to a caravan?

Fitting a solar panel to caravan, motorhome, boat or camper is a proven method of extending the life of 12V batteries. All our solar kits are suitable for marine environments, fresh or salt water. Each solar panel is built to the very

highest quality standard of materials and workmanship.

Which solar panels are best for a caravan & motorhome?

The Sunshine Flexible Solar range benefit from being thin, light and when fitted to the roof of a caravan or motorhome very aerodynamic. The flexible, unbreakable nature of these solar panels makes them very popular in marine environments where durability under harsh outdoor conditions is a must.
