All you need to know about the SunPower SunVault 13 solar battery including rating, cost, efficiency, and warranty terms.

How much does the SunVault cost?

Batteries are certainly pricey; for a SunVault storage battery you can expect to pay about \$12,000 - \$25,000, including installation. Many times, it is impossible to give an exact number for how much you can expect to pay for a battery, SunVault included.

Range for the 13kw I've seen is \$17k to \$20k, for the 26k battery I've seen \$24k to \$32k.

All you need to know about the SunVault solar battery including rating, cost, efficiency, and warranty terms. How much does a sunvault battery cost?

This is likely the case for the SunVault, but we can't say for certain since Sunpower doesn't specify in their product brochure. How much does the SunVault cost?

Batteries are certainly pricey; for a SunVault storage battery you can expect to pay about \$12,000 - \$25,000, including installation.

Is the sunvault a good battery?

While the SunVault is a relatively new battery, it is a trustworthy option because, like the Equinox system, it will be built, warrantied, and serviced by SunPower. The SunPower SunVault works seamlessly with a SunPower Equinox solar system.

How many batteries does a sunvault have?

The SunPower SunVault offers one type of battery, the 13 kWh battery. You can install up to two if you need more backup power, giving you a maximum 26 kWh of energy capacity. The SunVault system includes the battery itself, as well as the Hub+. The Hub+ is what controls the energy flow and dictates how the stored energy is used.

How much does a SunPower sunvault cost?

Learn more about our mission and how we make money as a company. The SunPower SunVault costs around \$15,000 before installation. The SunVault comes in two sizes with 6.8 kW of power output and 13 or 26 kWh of usable capacity, depending on the model.

What does a sunvault installation include?

A SunVault installation includes both a battery and a control system - SunPower calls this control unit the "Hub+." You also get access to SunPower's mobile monitoring app, where you can see the performance of your storage system and manage its settings. This is especially valuable if you pair a SunVault installation with solar panels.

What is sunvault battery storage?

Whether you want to reduce your reliance on the grid or enjoy peace of mind protection from outages and blackouts, SunVault battery storage is one of the most advanced and energy-efficient energy storage solutions on the market today.

SunPower lowers guidance, posts net loss of US\$32 million in Q3

The company posted a net loss of US\$32 million in Q3 2023, down from a net income of US\$138.4 million in Q3 2022. Image: SunPower. US domestic solar company SunPower has lowered

its FY2023

Does Sunvault battery always discharge down to reserve

They told me that periodically the battery system reconfigures itself and will only charge and not discharge. After recharging to a full 100%, it will complete this reconfiguration cycle and begin discharging again. Today, we had a nice sunny day for a change. The battery finally reached 100% and is now back to its normal operation.
