10 Beautiful Places To Visit In Svalbard And Jan Mayen

10 Beautiful Places To Visit In Svalbard and Jan Mayen. 1. Longyearbyen As the northernmost commercial cabin in the world, stays here are for those looking for true isolation and connection with nature. using solar energy for power and melting snow for water. The activities while staying at Nordenskiöld Lodge are centered around the

January Weather in Longyearbyen Svalbard & Jan Mayen

January Weather in Longyearbyen Svalbard & Jan Mayen. Daily high temperatures are around 15°F, rarely falling below -7°F or exceeding 34°F.. Daily low temperatures decrease by 2°F, from 6°F to 3°F, rarely falling below -18°F or exceeding 26°F.. For reference, on July 21, the hottest day of the year, temperatures in Longyearbyen typically range from 41°F to 47°F, while on ...

Philippines gov green lights 'world's largest' solar, storage project

The 63.3MW Calatagan Solar Farm, which was the largest in the country when it was commissioned in 2016. Image: Solar Philippines. The Board of Investments (BOI) in the Philippines has given a 'green lane certificate' for a solar and storage project said to be the largest in the

world, enabling it to proceed at a quicker pace.

Svalbard Airport , Maxeon Solar Panels , SunPower Global

Running an Arctic Circle airport on solar energy might seem like an interesting research project. But in Svalbard, Norway, it's mission-critical. Located midway between mainland Norway and the North Pole, the Svalbard Airport is the northernmost commercial airport in the world and a last stop for researchers going further north.

CIP acquires 255MW/1020MWh battery storage project in Arizona

The project, which commenced construction in early 2024, will commence commercial operations in the first half of 2025. Strata, with its western headquarters in Phoenix, has a strong presence in the region, and more than 6GW of solar PV and 24 gigawatt hours of battery storage projects under development.

Market Research in Svalbard and Jan Mayen

Svalbard caters to niche groups of tourists, such as people seeking snowmobile adventures and the marvels of the auras. Scientists consider the location of Svalbard to be a sweet spot where they can research things such as climate ...

'US' largest' solar-plus-storage project comes online in Nevada

Quinbrook and Primergy claimed the Gemini is the 'largest co-located solar plus BESS project in the US'. That claim may be contested by IPP Terra-Gen which reached full completion on its 875MWdc solar PV and 3,287MWh BESS Edwards & Sanborn solar-plus-storage project in California, at the start of this year.
