

## Solar Energy South Africa

# Switzerland battery gmbh

## Overview

---

### Who is Swiss battery?

Our company SwissBattery.com develops battery products and materials for the electric automotive & airspace market. Our target is top benchmarking. We focused at an early stage of the product development on energy use and cost. Our products are resilient in increasingly regulated and clean emerging markets.

### What is Swiss battery used for?

The technology of Swiss Battery is suitable for a high-energy /high-power applications which can boost the range of electric airplanes. Electric aircraft are all sizes, from electric passenger airplane to all sizes of unmanned aerial vehicles (UAV) used for agricultural applications and defense.

### What are Swiss battery engineers doing?

Swiss Battery engineers have secured multiple inventions that are substituting critical heavy-metals with tailor-made, renewable battery raw materials. Science is the basis of our discoveries and innovations.

### How big is Swiss clean battery?

The production area will be expanded to about 100,000 sq m (119,599 sq yd) from 20,000 sq m in the initial phase. Swiss Clean Battery claims that the solid-state battery technology, licensed by Switzerland-based High Performance Battery AG, is a promising successor technology to lithium-ion batteries.

### Will Swiss clean battery go public in 2022?

The solid-state batteries are also incombustible and do not require any critical raw materials such as cobalt. To fund its plans, Swiss Clean Battery will resort to debt financing and go public on the stock market in Zurich in October 2022. The company was established last February.
