

## Solar Energy South Africa

# São Tomé and Príncipe storing solar energy

## Overview

---

Does Sao Tome & Principe have solar power?

According to data from the International Renewable Energy Agency (IRENA), Sao Tome and Principe did not have any grid-connected solar generation capacity installed at the end of 2021. The World Bank says Sao Tome and Principe has an electricity access rate of around 76%, with 92% of the total coming from imported diesel.

When will a 300 kW power plant be installed in Sao Tome?

Cleanwatts told pv magazine that it started developing 1.1 MW at Sao Tome airport and 300 kWp at Principe airport in August. It expects to complete the arrays by the end of this year. Another 300 kWp will be installed next year at other communities in Sao Tome.

Where will solar power plants be installed in so Tomé?

The company will collaborate with the public utility Power and Water Company (EMAE) to install solar power plants across the country. The first phase of the program will include the installation of solar PV plants at the São Tomé international airport, as well as on the island of Príncipe, with capacities of 1.1 kW and 300 kW, respectively.

How long does it take to build an airport solar plant?

According to Basilio Simoes, Cleanwatts Co-Founder and Vice Chairman, the airport solar plant would take less than three months and whereas the bigger plant may take up to two years to build.

### São Tomé & Príncipe: Contractor sought for Santo Amaro solar PV

The Ministry of Infrastructure and Natural Resources (MIRN) has launched a tender for an engineering, procurement and construction (EPC) contractor to build and maintain a 1.5MW solar PV plant in Santo Amaro. The tendering process and work is financed by the African Development Bank (AfDB). Bids are to be submitted by 6 June.

### UNIDO to support São Tomé and Príncipe's first OTEC development

The 160 000 km<sup>2</sup> exclusive economic zone around São Tomé and Príncipe is an untapped solar heat battery, which OTEC platforms could harness to supply carbon-free, baseload power. An OTEC plant can generate electricity at a load factor of 95% throughout the year. 2023 issue of Energy Global hosts an array of technical articles focusing on

### São Tomé and Príncipe Signs MoU For Ocean Thermal Energy

...

São Tomé and Príncipe signed a memorandum of understanding (MoU) on 23 August with UK's Global OTEC Resources and France's Enogia for the development of a pilot ocean thermal energy conversion (OTEC) platform. Known as Dominique, the 1.5MW floating facility will be installed in the Gulf of Guinea. Global OTEC will

act as the technology and ...

## Cleanwatts to deliver solar solutions to São Tomé and Príncipe

The Government of São Tomé and Príncipe has committed to reducing the country's dependence on fossil fuels and increase the proportion of renewable energy, a goal this project aims to support. More about São Tomé and Príncipe Energy Transitions Podcast: Driving sustainability in the tropics with Ocean Thermal Energy Conversion

## São Tomé & Príncipe: Framework to support energy, climate

São Tomé and Príncipe has entered into a new Country Partnership Framework which will focus on energy, digital, transport and education. Solar energy project to bring electricity to a million people.
