I engaged Tangent Energy to install a 2.6kw GivEnergy battery onto our pre-existing solar PV installation. The company were helpful and

efficient, completing the job to a high standard in a timely manner and for a good price. I would highly recommend Tanjent to anyone looking for a solar PV solution for their home. Date of experience: February

Solar and Battery Systems

The water (energy) will pour out of a big tap, but only trickle out of a tiny tap. For your home system, you want power sufficient to run real world equipment (a big enough 'tap'). For example, a kettle typically uses 2 kW for a few minutes. If your battery can deliver a power output at 2kW or above then it will all come from your cheap
