Teknoware central battery system Honduras

Teknoware central battery system Honduras

Central Battery Systems , Electro Power Systems

Teknoware also manufactures a range of central battery systems. In addition to the standard features, there is also available an automatic addressable testing system. Teknoware's entire product range is designed to meet the ...

Central Battery System TKT7740CP

The central battery system is compatible with all of our 230 V addressable luminaires so you can

65C Central Battery System

The 65C central battery unit is optimal for small properties, but may be also used in bigger projects, when dividing the emergency lighting into several independent areas. The system has 8, 16 or 24 output circuits depending on the type. Maintained and non-maintained luminaires can be installed in the same circuit.

41 Central Battery System

The 31 and 41 central battery units are an easy and economical solution for supplying a relatively small number of luminaires in a limited area. These systems are especially suitable for properties and premises where the system is to be divided into several independent areas. The 31 system has 4 output circuits.

replace an existing system with ease. The TKT7 series is an easy to adapt solution for locations which need different numbers of luminaires. Teknoware Oy . Our passion is finding the best lighting, interior or emergency lighting solution for

50KW modular power converter

[Central Battery System TKT772CP](#)

The central battery system in the TKT7 series offers an efficient, high-tech emergency lighting solution. You can easily modify the system according to your needs, making the new TKT7 series a truly flexible choice. Teknoware Oy . Our passion is finding the best lighting, interior or emergency lighting solution for trains, buses, buildings

[Central Battery System TKT7624CFP](#)

The central battery system is compatible with all of our 230 V addressable luminaires so you can replace an existing system with ease. The TKT7 series is an easy to adapt solution for locations which need different numbers of luminaires. Teknoware Oy . Our passion is finding the best lighting, interior or emergency lighting solution for

[75C Central Battery System](#)

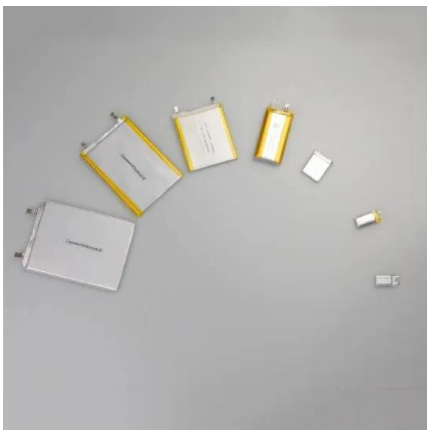

The 7 series is compatible with all our 230 V addressable luminaires, which makes it easy to upgrade an old central battery system. The central battery unit is easily upgraded according

to the number of luminaires in the property. Depending on the model, the 75C central battery unit has 4-24 output circuits. Max. battery capacity 65 Ah.
