Data repository for solar and meteorological ground measurements from a network of weather stations in West Africa. The data is provided in the framework of the West African Power Pool project: "Solar Development in Sub-Saharan Africa - Solar resource measurement campaign in West Africa". Funding is provided by World Bank. Measurement ...

Open Hardware for Renewable Energy , The Libre Solar Project

The vision behind Libre Solar is to develop open-source hardware components for a smart and renewable energy system. Development stage badges Currently, different versions of charge controllers and battery management systems (BMS) are under development. The development stage of the devices is marked with the following badges:

Gambia launches tender for 50 MW solar plus storage project - SPE

The Gambian Ministry of Petroleum and Energy (MoPE) and the state-owned company Nawec have jointly launched an initiative tender for the construction of a 50 MW PV installation in Soma, south of the Gambia River.. The PV plant is part of a 150 MW solar project under development since 2019 and expected to be coupled with unspecified battery storage ...

Universal Access by 2025 and Transforming The Gambia

renewable technologies, particularly solar PV, which is the least cost form of renewable energy in The Gambia. Providing access to electricity to support inclusive and sustainable socio-economic development is one of the pivotal cornerstones of the Gambia government's priorities as articulated in the
